IT Essentials 5.0

5.2.1.5 Lab - Install Windows 7

Introduction

Print and complete this lab.
 In this lab, you will install the Windows 7 operating system.

Recommended Equipment

- The following equipment is required for this exercise:
- A computer with a blank hard disk drive.
 - Windows 7 installation DVD or USB flash drive.

Step 1

Insert the Windows 7 installation DVD into the DVD-ROM drive or plug the USB flash drive into a USB port.

When the system starts up, watch for the message "Press any key to boot from CD or DVD."

If the message appears, press any key on the keyboard to boot the system from the DVD. If the press any key message does not appear, the computer automatically starts loading files from the DVD.

The screenshot shows the Internet Options dialog box with the following tabs checked:

- General: allows for Dial-up, VPN, and Proxy Server settings to be configured
- Security: Connections
- Programs: allows IE to be set as the default web browser, enables browser add-ons, allows for the HTML editor to be set for IE, and allows for the selection of programs used for internet services
- Advanced: allows for IE settings to be reset to their default state
- Content: allows for adjustment of AutoComplete settings, and configuration of the feeds and web slices that can be viewed in IE
- General: allows for selecting the default home page, viewing and deleting browsing history, adjusting search settings, and customizing the browser appearance

The screenshot shows a Google Chrome browser window with the following content:

IT Essentials (Version 6.00) - ITE, Capítulo 6

15 En una universidad se utiliza tecnología de virtualización para dictar cursos de seguridad de la información. Algunos de los ejercicios de laboratorio incluyen el estudio de las características de virus y gusanos de computadora. ¿Cuál es la ventaja de realizar los ejercicios de laboratorio en el entorno virtual en comparación con la utilización de PC reales?

Options:

- El entorno de virtualización ofrece mejores herramientas para descubrir vulnerabilidades de seguridad.
- Los ataques de virus o gusanos se controlan con mayor facilidad en un entorno virtual, lo que ayuda a proteger la red y los dispositivos de su universidad de los ataques.
- Los virus y gusanos tienen una funcionalidad limitada en el entorno virtual.
- Los ejercicios de laboratorio se realizan más rápidamente en el entorno virtual.

What the technician should do to do the browser display the secure content of the web server? If the default gateway is missing or incorrect, that host will not be able to communicate outside the local network. * It can communicate on the local network as well as on the Internet. The domain name resolution failed. DC power is required for all the components inside the computer. A small company is upgrading its phone system with IP phones. What is the probable cause of this problem? The cable is not connected properly to the NIC. 12. A technician is setting up a server that requires two connections between the client and the server, one for commands and replies, the other for the actual transfer of files. * Explanation: The default gateway is the address of the device a host uses to access the Internet or another network. The WLAN is a mixture of old and newer 802.11b and 802.11g devices. Do not touch high voltage areas. A PoE switch transfers small amounts of DC current over an Ethernet cable, along with the data, to power PoE devices. It will then aggregate the internet access requests from home devices to the internet. fe80:9ea:0:2000:fe0:290 * fe80:9:20::b000:290 fe80:9ea0::2020:0:bf:e0:9290 fe80::0220:0b3f:foe0:0029 24. The web server must provide secure communication through SSL/TLS technology. A DHCP server automatically assigns host IP addresses. 11. It cannot communicate outside its own network. Also, home.html is not required for a web server to function. proxy server * FTP server web server print server 17. A technician needs to add a new wireless device to a small WLAN. What type of server will accomplish this task? Which technology would support the IP phones? It has a public IP address that has been translated to a private IP address. Keep a fire extinguisher beside the laser printer while working inside it. The computer has an incorrect subnet mask. print server * FTP server proxy server web server 14. Remove a watch, jewelry, and other What tool can you use the technician to resolve serial communication? What is the compressed format of the IPv6 FE80 address: 0000: 0000: 0000: 0220: 0B3F: F0E0: 0029? Make sure the domain name is solved correctly. It can communicate with the networks within a particular company with subnets. A small company connects data acquisition equipment to a computer's serial port. Aim directly at the center of the flame, squeeze the lever and sweep from side to side. This protocol should be disabled. A technician wants to control serial communication between the equipment and the computer. Make sure the printer has the connected power and there is a good terrain. HTTP is the default protocol used by all web browsers so that if a user does not specify the protocol in the URL, HTTP is used by default. If the domain name is used in the URL, you need to find the IP address corresponding to the domain name through the name resolution process. 4. In a loopback test, a signal is transmitted through a circuit and then returned to the sending device to test the integrity of data transmission. FTP Server * Server Server Web Server Proxy Server 16. Use ::443 as the URL. 3. * Use as URL. Furthermore, the UPNP protocol has numerous security vulnerabilities. 5. Know where the fire extinguisher is and how to use it. * Explanation: 802.11n devices are interoperable with all other standards and provide more bandwidth than other standards. 2001: db8 :: ab8: 1: 0: 1000 * 2001: db8: 1 :: ab8: 0: 1 2001: db8 :: a0b0: 8: 1 2001: db8: 0: 1 :: 8: 1 26. Explanation : A web URL is in the module protocol: // domain / resource name. What is the compressed format of the IPv6 2001 address: 0dB8: 0000: 0AB8: 0001: 0000: 1000? Remove jewelry and other accessories. AAA * DNS Server DHCP Print Server 22. WPdiscuzx 1. The company has obtained a domain name, company -a.com, from a domain register service. Explanation: Explanation: a computer is configured with DHCP but it cannot communicate with the DHCP server in order to obtain an IP address, the Windows OS automatically assigns a link-local IP, in the range of 169.254.0.0 to 169.254.255.255. 2002:420:c4:1008:25:190:990 * 200:420:110:c4b::910:0:90 2002:42:10:c400:909 2002:42::25:1090:0:99 25. Access ideas and advice on how to get valuable hands-on experience. Secure loose clothing. A computer can access devices on the same network but cannot access devices on other networks. The computer has an invalid IP address. The DHCP server is down. Which is the compressed format of the IPv6 address 2002:0042:0010:c400:0000:0000:0000:0909? 2001:db8::a0b0:8:1 * 2001:db80:1:80:1 2001:db8::ab8:1:0:1000 2001:db8:0:1::8: 28. Explanation: Safety procedures that would apply specifically to laser printer repair would include the following:Allow the hot areas of the laser printer to cool. Add a new 802.11b device. What choice for the new device would provide the most interoperability for present and future growth? AAA * FTP server web server print server 15. Which is the compressed format of the IPv6 address 2002:0420:00c4:1008:0025:0190:0000:0990? The new web server is accessible through the IP address matching the domain. The computer can only communicate with other computers connected to the same 169.254.0.0/16 network and cannot communicate with computers in another network. The current IP configuration of a small company is done manually and is time-consuming. DSL uses a filter to separate the traffic. S eAAA Sweep the nozzle from side to side. Which type of device must the user have in order to establish the wireless network and provide access to the internet for multiple home devices? The technician needs to disable an option on the access point that would allow devices to dynamically add themselves to the network without configuration. A user is setting up a home wireless network. All other As USB, FireWire and expansion buses communicate with the CPU via the Southbridge chipset. Use as URL. A computer is assigned an IP address of 169.254.33.16. What kind of server stores print jobs in a queue and will it later on your device when it's ready? A network technician is installing a web server for a small company. Telephone lines * 4G wireless radio television cable via satellite Explanation: DSL uses existing telephone lines to transport voice and data traffic at the same time. Authentication Server * Server Print Server FTP Server DNS 13. The equipment of the equipment reported that not all data is received from the computer. ITE v7. 0 A € à € œ it essentials (version 7.0) A € à € à € œ it essentials 7.0 Practice final 1 A € à € à € œ it answers to the exam 03 Combined device Keyboard / mouse KVM switch Audio system Video distribution center Video distribution center Explanation: A KVM switch is commonly used to connect a multi-computer mouse, keyboard and monitor. Aim at the base of the flame, press the lever and sweep from side to side. 7. Add a new 802.11n device. Low-voltage devices that support PoE, such as IP phones, can be powered via the Ethernet cable. Although convenient, UPnP is not sure. When lifting printers or heavy parts, bend to the knees to lift. What is the problem? An administrator is configuring a framework to support access control over a network device. These phones can be used simply by connecting to a network port in the offices. * Patch Switch panel Explanation: A wireless router connects more wireless network devices. What kind of server is able to check those who are authorized to access a network and monitor what actions do they perform when accessing the network? Provides consultancy free and connects you to the work through a matching engine. 2002: 420: c4: 1008: 25: 190 :: 990 :: 990 : 2002: 42: 10: c400 :: 909 2002: 4200 :: 25: 1090: 0: 99 2002: 42 :: 25: 1090: 0: 99 31 .
